

HYNES EDUCATION ADVOCACY GROUP

Guiding Families. Protecting Rights. Empowering Students.

Executive Summary

Hynes Education Advocacy Group supports families of children with disabilities from birth through age 22 across New York. We provide steady, informed guidance so families understand their rights and feel confident navigating the education system. Our mission is to ensure every child receives the educational services and supports they are legally entitled to under federal and state law.

What Makes Us Different

Our leadership includes former district administrators who have served as teachers, instructional leaders, and superintendents overseeing special education, curriculum, student services, budgeting, and policy implementation. We understand how schools operate — from classroom practice to Board of Education decision-making.

Equally important, we are parents who have personally navigated Early Intervention, CPSE, CSE, IEP development, and transition planning for our own child. This dual perspective allows us to support families with both professional insight and lived empathy.

Core Services

- Initial special education referrals and evaluation guidance
- CSE and CPSE meeting preparation and support

- IEP and 504 plan review and development
 - Advocacy and representation during school meetings
 - Transition planning (school-to-school and school-to-adulthood)
 - Parent training and student self-advocacy coaching
-
